

Cellular Basis of Diseases

Medical University of Innsbruck

International PhD program 2020

Cellular Basis of Diseases

Molecular Control of Metabolism & Inflammation

Connecting:

Molecular Cell Biology, Clinics, Immunology,
Metabolism and Computational Biology

We offer **15 fully funded PhD positions** in the **PhD program Cellular Basis of Diseases (CBD)** at the Medical University of Innsbruck, Austria. The interdisciplinary PhD projects address the molecular control of metabolism & inflammation and connect basic life science and computational biology with medicine.
