

PhD fellowships in cell and cancer biology in France

The Cancer Research Center of Marseille (CRCM) <http://crcm.marseille.inserm.fr/en/> is pleased to announce that 2 PhD fellowships (3 years) will be available from 1 January 2017 or as soon as possible thereafter.

PROJECT A. PDZ-mediated syndecan-phosphoinositide networks in trafficking and signaling.

PROJECT B. PDZ network associated with Vangl and Scribble cell polarity proteins and implication in cancer.

These PhD fellowships are part of the EU-funded project (the PDZnet), which is an ambitious inter- and multidisciplinary European Training Network under the H2020 Marie Skłodowska-Curie Actions (www.pdznet.eu) offering training for 14 PhD fellows. The PDZnet consortium contains 12 different partners in 6 EU countries (Denmark, Sweden, Germany, France, Italy, Portugal). The PDZnet training program involves a range of network wide training activities.

The candidate should have less than 4 years of research experience and must not have resided or carried out his/her main activity in France for more than 12 months during the last 3 years immediately prior to the recruitment.

The candidates must hold a Master's degree with strong records in a relevant subject area prior to the starting date, be fluent in English and have excellent communication skills.

How to apply?

Send CV, motivation letter and the coordinates of 2 referees to pascale.zimmermann@inserm.fr (supervisor project A) and/or jean-paul.borg@inserm.fr (supervisor project B). The application deadline is November 30th 2016.
