

POSITION OFFER

RESEARCHER IN CAPTIVE BREEDING TECHNIQUES	
Company	Reneco International Wildlife Consultants
Job category	Permanent position
Job locations	Abu Dhabi, United Arab Emirates
Job context	<p>Reneco's mission is to implement an overall conservation strategy aiming to restore and preserve the endangered North African and Asian native houbara bustard populations (<i>Chlamydotis undulata</i> and <i>Chlamydotis macqueenii</i>). To achieve these goals, Reneco has developed a multidisciplinary approach in different centres and countries combining fundamental and applied research in such varied areas as ecology, biology, physiology, captive breeding, veterinary medicine, with an in-depth expertise in the reinforcement of wild populations.</p> <p>More particularly, research efforts aim to increase general knowledge on both species and their habitats to provide useful tools for conservation planning at a large scale and in various environments. In addition, the success of the programme and its impact on the environment has to be carefully assessed.</p>
Job description	<p>The holder of this position will focus on research and development of captive breeding techniques applied to bustard species, with a particular emphasis on the effects of husbandry techniques in outdoor and indoor (controlled environment) on individual condition and reproduction.</p> <p>The successful candidate will have the following responsibilities: Protocol edition and follow up of their application / team training and coordination/ data analysis / report edition / scientific papers edition / international communication (congress) / conduct regular research meeting (students, fieldworkers) / student supervision.</p>
Skills required	<p>The successful candidate should hold a PhD degree with an education or experience well rounded in breeding biology, reproduction physiology, animal behaviour, and bird husbandry. Complementary knowledge in the following topics would be an asset: ex-situ conservation, artificial reproduction in controlled environment.</p> <p>He/She must be able to move in several countries within Middle East, Central Asia and North Africa.</p>
Language requirements	Fluency in English
Additional valuable abilities	<p>Ability to work in a multicultural and multinational environment. Mobility across all Reneco's projects in Middle East, Asia and North Africa.</p>
Start date	2018
Salary	Commensurate with experience
Additional benefits	Full medical insurance, travel allowance, length of service gratuity, provisions for accommodation
